* Students can add and drop courses throughout the school year. The maximum number of courses a student can take concurrently is **4**. The 5.75 hours per week time allotment on the Written Student Learning Plan assumes traditional course pacing and will allow a student to complete a year-long course during the school year and a semester course during a semester. If the student desires to complete a course faster, they will need to choose a different pace and communicate that on their academic plan, to their Site Coordinator and their teacher.

+ No teacher/student communications are required for these weeks.

Member Schools can enroll students directly into Greenways Academy via the Greenways Academy SIS (<http://app.greenwaysacademy.com>). Enrollment forms can be downloaded from and uploaded directly into the Greenways SIS. The system is easy to use. Instructions are included in this packet. Our Registrar, Barbara Wells (barb@greenwaysacademy.com), can walk you through its operation and answer any questions.

Alternatively, member schools can email enrollment paperwork to info@greenwaysacademy.com or fax to 314-228-0245.
